(Revised edition, 2010)

Dedication

This publication is dedicated to all those who have been involved with the *Mazama* Annual: authors, editors, publishers, and committee members, and especially to those who have indexed the Annual in the past.

Thank you.

Mazama 100 year index

INTRODUCTION

Introduction to 2010 Edition

Several corrections have been incorporated since the 2005 edition. In addition some material from other sources, mostly Mazama Bulletin's and material from the Mazama Archives have been incorporated as this is one of the major documents of Mazama history. These entries have no page number.

An additional Appendix has been added, Appendix I. This is an index of the photographs and their photographers that have appeared in the first 100 years of the Mazama Annual.

I hope that it continues to be a useful document. Any suggestions for improvement, please contact me at robertlockerby@msn.com.

Robert Lockerby

While I have compiled this index it is also based on the work of the previous *Mazama* indexers and it is to them that I owe inspiration.

In assembling this index, I have made an attempt to update old subject headings and add additional subject headings as needed. In addition, all Authors and Titles have been cross checked for consistency. For the first time, maps of areas and diagrams of climbing routes have been indexed under a special heading **MAPS AND ROUTES** and articles that are solely climbing guides are listed under **GUIDES, CLIMBING**.

I have made extensive use of *SEE* and *SEE ALSO* in this index, the use of which is explained below.

SEE There is nothing under this subject heading, but refer to the subject headings listed after it for information.

ALTITUDE SICKNESS see MEDICAL REPORTS

SEE ALSO There is something under this subject heading, and you might look also under the headings listed after it for more information.

This index is an author, title and subject index, with subjects indicated in **BOLD CAPITALS**.

A personal name in regular type (Abbott, Oran) indicates that person is the author of the article.

A personal name in bold type (**Angell, James (Jim) K., Jr.**), but not all capitals indicates the person as the subject of the article.

Numerals indicate year and page (i.e., 1980:116 refers to page 116 of the 1980 annual journal). Only the first page of a multi-page article is given.

And lastly, I would like to give special thanks to Vera Dafoe and John T. Booth for the invaluable assistance they both gave me in the preparation of this index.

Robert W. Lockerby, March 5, 1996

Included in the Revision are four appendixes;

Appendix I, Index of Photographs and Photographers in the Mazama Annuals, 1894-1993

Appendix II, List of Mazama Council Members, 1894-1993

Appendix III, List of Committees and members, in alphabetical order

Appendix IV, Mazama Membership, 1894-1993

In some years no Annual (or Bulletin) was published, hence no list of committees or membership is available for that year.

APPENDIX I

PHOTOGRAPHS AND PHOTOGRAPHERS

In general, **Bold** indicated either an object (sometimes person) or a photographer. A year in parenthesis (1919) after the title indicates the year the photo was taken if known and different from the year published. There are a few photos of mountains and other scenes that were not identified (usually the backdrop for "In Memoriam"). These unidentified photos have not been indexed. An (AP) indicates an aerial photograph. Not all aerial photographs are so indicated. Title in parenthesis (xxx) indicates a title supplied by the indexer.

In cases where there is a picture of a photographer, the entry is still under the name of the photographer, but the photographer's name is included as well.

Scott, Tom A.

- Boston Peak and Boston Glacier from Park Creek Pass, 1948:4
- Booker Mountain from ridge below Buckner Mountain, 1948:16
- Returning from Sahale Mountain, Betsy Parker, 1948:20

The first two are photos taken by Tom Scott, the third entry indicates a picture taken by Betsy Parker with Tom Scott in it.

Where the person is identified and if the face can be clearly seen or the person is of some significance, I have made an entry for them. The exception to this is Executive Council photos.
